

DISCOVERER AT3^{4S}

ON-ROAD COMFORT WITH
OFF-ROAD DURABILITY

OUTSTANDING GRIP AND
HANDLING ON WET ROADS

WORLD EXPLORERS

Regardless of the weather and road conditions, Cooper Discoverer AT3^{4S} with Adaptive Traction Technology is the perfect tire for the world of explorers

ON-ROAD COMFORT WITH OFF-ROAD DURABILITY

OUTSTANDING GRIP AND HANDLING ON WET ROADS

AVAILABLE SIZES

Snow-Groove™ Technology

Saw-tooth design traps snow in the tread to provide superior traction on snow

Secure-Grip All-Terrain Design

5-rib all-terrain pattern provides greater off-road driving capability with improved traction for wet and dry roads

18"

265/65R18

Micro-Gauge Zigzag Sipes

Smaller gauge biting grooves (sipes) in all tread blocks provide increased vehicle stability and control, while reducing stone retention and drilling. Zigzags create more biting edges for optimal wet/dry traction

Aqua Vac Channels

Prevent hydroplaning with deep center channels
